Version-2.0

सत्यमेव जयते

Ministry of Health and Family Welfare
Government of India

Agenda

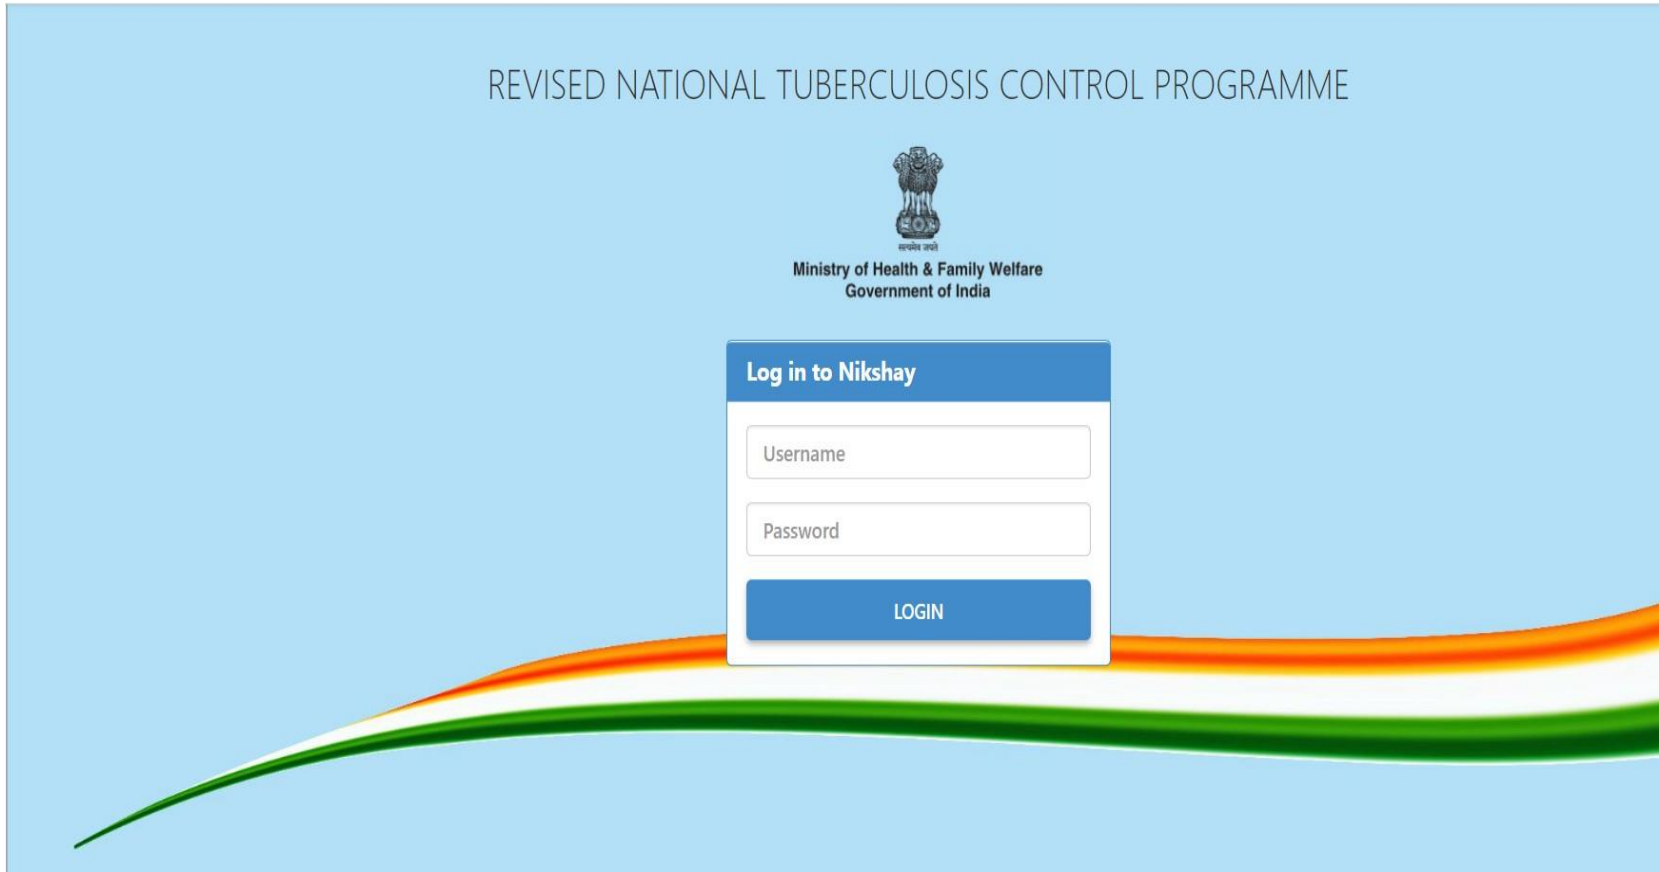

- ▶ Salient features of Nikshay 2
- ▶ Patient Management
- ▶ Patient Search
- ▶ Direct Benefit Transfer
- ▶ Referral and Transfer
- ▶ Task Lists (*under progress*)
- ▶ Reports (Notification Register)
- ▶ Admin Module
- ▶ Technical support /Help desk

Salient Features of Nikshay 2.0

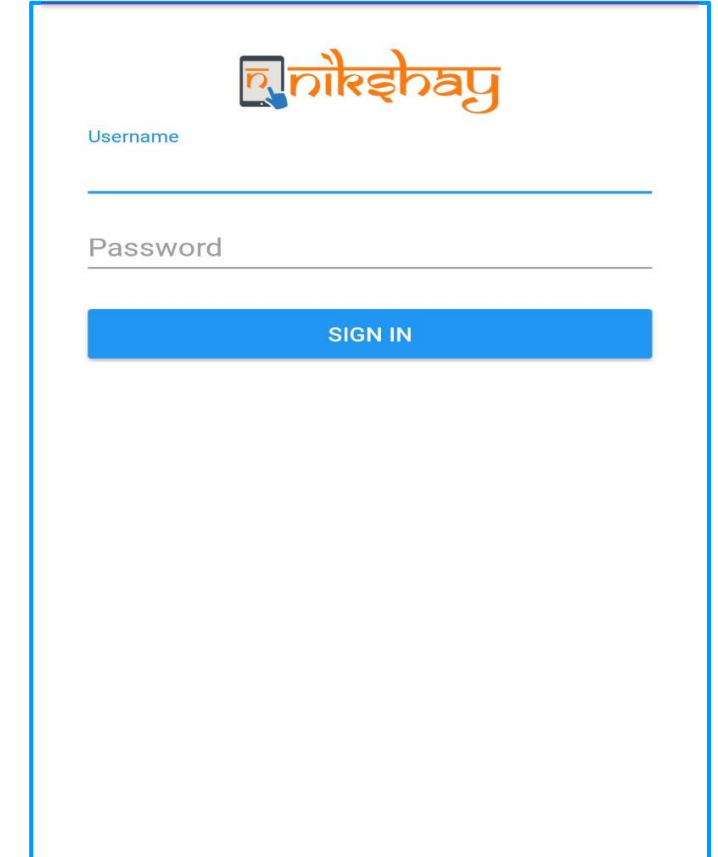

Nikshay is an Integrated ICT system for TB patient management and care in India. Consolidating various improvements since 2012, Version 2 makes the following upgrades:

1. Unified interface for public and private sector health care providers
2. Integrates all adherence technologies such as 99DOTS and MERM
3. Unified DSTB and DRTB data entry forms
4. PHI level users
5. Mobile friendly website with mobile app

Nikshay 2 is accessible either via web browser (<https://Nikshay.in>) or mobile App that can be downloaded from Google Play Store

(log in page in web browser)

(log in page in mobile App)

The Home page is loaded with many features to enable easier access and use

Patient search facility

life cycle

New Enrolment

- ▶ This module enables registration of ALL kinds of new cases
 - ▶ **Presumptive** Case or Confirmed **Patient**
 - ▶ Taking treatment from **Public** or **Private** Sector
 - ▶ **DS TB** and **DR TB**
- ▶ On enrolment, a unique 7 digit numeric Patient ID gets generated.
- ▶ Before enrolment of a new case, users should search (by Patient Name) to see if the patient is already registered, to avoid duplicates registrations

Patient added with Id - 4370013. Click to add Tests.

- ▶ Patient will be assigned status: **Presumptive (Open)**
- ▶ Note the ID generated for the case
- ▶ Tests can be added from the link provided

- ▶ After enrolment, Patient records can be searched by **Name** or **Patient ID**
- ▶ Users can search presumptive cases and Patient records, registered by **both public and private sector** registered **under their** PHI or TU or District
- ▶ Nikshay also enables search if **Patient ID is not available** or if the record is not searchable by Name (due to spelling mismatch); via the **Patient Management** Module.
- ▶ In the Patient Management Module, patient lists are provided which enables **drill down** to PHI level and manually select the patient's record.
- ▶ For simplicity, patients are divided into lists and sub-lists based on treatment status
1) Presumptive, 2) Diagnosed TB (Notified) and, 3) Transfers
- ▶ Note: Presently users **cannot** search for records **not enrolled by them** or are **not under treatment** with them. This Global search facility will be made available shortly.

The screenshot shows the Nikshay web application interface. At the top, there is a search bar labeled "Search Cases" with a magnifying glass icon and the text "To search by Name or Patient ID". Below the search bar is a navigation menu with the following items: Overview, New Enrollment, Patient Management (with a dropdown arrow), and a list of sub-categories under Patient Management: PRESUMPTIVE (Test Pending, TB not confirmed), DIAGNOSED TB (NOTIFIED) (Treatment Not Started, On Treatment List, On Treatment Calendar, Outcome Assigned), and TRANSFERS (Transfer In, Transfer Out). An orange box highlights the search bar and the text "To search by Name or Patient ID". An orange arrow points from the text "To view Patient lists, click on the Patient Management link" to the "Patient Management" link in the navigation menu. Another orange arrow points from the text "To view Patient lists, click on the Patient Management link" to the "Patient Management" link in the navigation menu. A list of sub-categories under Patient Management is shown with orange brackets and arrows pointing to the corresponding text descriptions on the right.

Add Test

- ▶ **Single screen** to add Diagnostic or Follow Up tests for Public or Private sector patients
- ▶ To register a **PATIENT**, it is compulsory to add a **POSITIVE DIAGNOSTIC** test
- ▶ Add Test is a 2-step process, **1) Test Request** and **2) Result Update**.
- ▶ These steps can be done by a user at once or by two different users.
Eg. 1: **TB HV** (enrols case + Requests Test) → **LT** (enters result)
Eg.2: **TB HV or LT** (enrols case+ Request Test+ Enter Result)
- ▶ As soon as a positive test result is entered, the patient gets notified

Step 1

Search case for which Test to be updated

Adding Test Results for Patients across any Location

- ▶ Test Results for any Patient across the country can be entered now in Nikshay.
- ▶ Users can search any patient across any location in the country using “+Add Test” button in the home page.
- ▶ In the +Add Test section, patients can be searched using only the numeric patient ID and not by any other fields.

Adding Test Results for Patients across any Location

Step 1

Click +Add Tests to search any patient across the country

Step 2

Search Patients Nikshay ID to enter Test Results

The screenshot shows the Nikshay web application interface. At the top, there is a search bar labeled "Search Cases" and a navigation menu with options like "Overview", "New Enrollment", "Add Tests", "Patient Management", "DBT", "Task Lists", "Unvalidated (99DOTS)", "Admin", and "Others". The "Add Tests" option in the sidebar is highlighted with an orange box. The main content area displays the "Add Test" page, which includes a breadcrumb "Dashboard / Add Test" and a heading "Add Test". A yellow warning box states: "You can enter the ID of any patient in the system - across the country. However please enter only the numeric patient ID, do not enter the old Nikshay ID or any other value." Below this, there is a text prompt "Please enter the Patient's ID" followed by a text input field containing the number "4898552". A blue "Submit" button is located below the input field and is also highlighted with an orange box. A callout box with an orange border and a pointer to the input field contains the text: "Enter Patient's Nikshay ID (only new) to search across any location to Add Test Results."

Step 1

Step 3

Enter a Product (Medicine)

The screenshot shows the 'Add Prescription' form in the Nikshay system. The form is titled 'Add Prescription' and is for patient 'Ram Sharma'. It contains several sections and fields:

- Product 1 Section:**
 - Product Type:** Radio buttons for 'Private' and 'RNTCP'. An annotation 'Select RNTCP' points to the 'RNTCP' option.
 - Adult/Pediatric:** Radio buttons for 'Adult' and 'Pediatric'.
 - Product Name:** A dropdown menu with 'RNTCP - 3 FDC' selected. An annotation 'Select Product Name and Weight Band' points to this field.
 - Weight Band:** A dropdown menu with 'Select' chosen. A red error message 'This field is required' is visible below it.
 - Number of Days:** A dropdown menu with 'Select' chosen. A red error message 'This field is required' is visible below it.
 - Number of blisters:** A text input field. A red error message 'This field is required' is visible below it.
- Validation Section:**
 - Chemist ID:** A text input field.
 - Date of Validation:** A date input field.
 - Remarks (Optional):** A text area.
 - Amount (INR):** A text input field with a rupee symbol (₹) on the left.

Annotations and callouts:

- 'Enter no. of days for which medicine is being issued' points to the 'Number of Days' dropdown.
- 'To add more drugs click here' points to the '+ ADD ANOTHER PRODUCT' button.
- 'Click here to add prescription' points to the '+ ADD PRESCRIPTION' button at the bottom.
- 'Please enter all required fields' is a red error message at the bottom of the form.

Contact Tracing

- ▶ Contact Tracing is a process of screening all household members in contact with the TB patients including Children less than the age of six.
- ▶ Contact tracing is very necessary to establish the primary source of the TB disease and to detect all those who are secondary infected for proper diagnosis and prompt treatment
- ▶ Under Contact Tracing tab, the details of other household members of the patient could be added.
- ▶ All the Contact Tracing details added for a given patient are visible to the User

Step 1

Click on Contact Tracing

Adherence Monitoring in Nikshay Version 2.0

- ▶ In Nikshay Version 2.0, one can monitor adherence in the following ways:
 - Using On Treatment Calendar in Web Dashboard
 - Using Patient Page in Web Dashboard
 - Using Notification Report in Web Dashboard

The screenshot shows the Nirikshay web dashboard interface. On the left is a navigation menu under 'Patient Management' with categories: PRESUMPTIVE (Test Pending, TB not confirmed), DIAGNOSED TB (NOTIFIED) (Treatment Not Started, On Treatment List, On Treatment Calendar, Outcome Assigned), and TRANSFERS (Transfer In, Transfer Out). The 'On Treatment Calendar' option is circled in yellow, with a yellow arrow pointing to the main content area. The main area displays a table of patients with the following data:

Name
All patients currently in Hubs of M.W.Desai Hospital
A.L.YADAV
Agrawal Clinic Surgical And General Hospital with ICU
AJAY CLINIC
AJAY P. PANDYE
ALAN ALAPPAT
AMAR CLINIC
ANAS CLINIC
AROGYA CLINIC
B.A.WALAVKAR
C.R.GUPTA
C.R.GURRU
C.R.YADAV
CARE HOSPITAL
CELINA M SAMPEY GALBAW
CHANDRA CLINIC
D.K.DASTUR
DHANANJAY DUKLAND
SURAJ K. SAHAWA

Step 1 – From Patient Management menu select On Treatment Calendar option

Step 2 – Select the hierarchy for which you want to see the list of patients in calendar view. Note that if you are logged in with private facility or PHI login you will directly see the calendar of all patients under it.

Step 3 – From the calendar view, click on the Tech column to sort the list as per adherence technology. Once you click sort the list will group patients on 99D, MERM and No technology options

Step 4 – Here you can view adherence calendar of all patients in that hierarchy. You can right-click on the patient name to open the individual patient calendar in a new window.

Status : **On Treatment (Notified)**

Adherence Technology: **99DOTS** Refill Monitoring: **Unknown**

Adherence Enrollment Tests Treatment Details DBT Close Case Notes Others ▾

Overall Adherence **100% (Technology + Manual)**

Last Dosage **14/11/2018**

+ Mark/Remove missed doses

+ Mark/Remove manual doses

+ Add/Remove Tags

■ Treatment Start / End
 ■ Received (using technology)
 ■ Shared phone numbers (99DOTS only) information
 ■ Manually confirmed
 ■ No dose needed
 ■ No
 ■ Confirmed missed dose

Adherence Metric	Technology (99DOTS) Only	Total
Overall	96 %	100 %

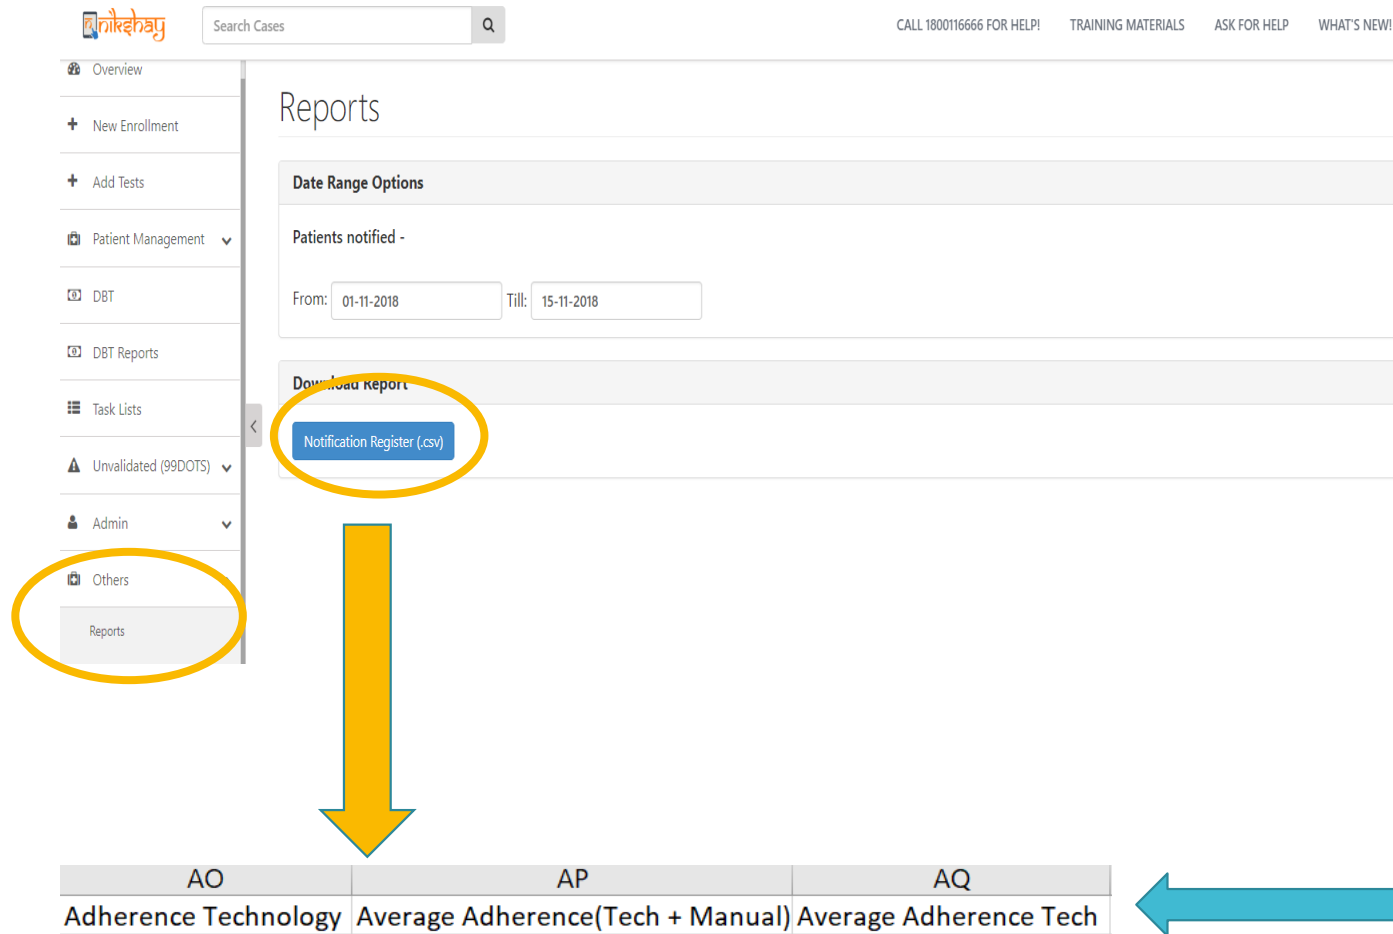

From the patient page in web dashboard, you can view the adherence calendar and also see overall adherence, technology only adherence, the type of adherence technology the patient is using, and you can also mark manual and missed doses.

Step 1 – From the Web Dashboard, go to Others > Reports option

Step 2 – Enter the date range

Step 3 – Click the Notification Register button to download the report

Step 4 – Open the csv report in excel and view the adherence related columns for each patient

The screenshot shows the Nikshay web dashboard interface. On the left sidebar, the 'Others' menu item is circled in yellow, and the 'Reports' sub-item is also circled. In the main content area, under the 'Reports' section, the 'Date Range Options' are set to 'From: 01-11-2018' and 'Till: 15-11-2018'. Below this, the 'Download report' section has a 'Notification Register (.csv)' button circled in yellow. A large yellow arrow points from this button to a table below. The table has three columns: 'AO Adherence Technology', 'AP Average Adherence(Tech + Manual)', and 'AQ Average Adherence Tech'. A blue arrow points from the right towards the table.

AO	AP	AQ
Adherence Technology	Average Adherence(Tech + Manual)	Average Adherence Tech

Note that the notification register download option is only available for district, TU, phi, private facility hierarchies. It is not available for State or country logins. You can apply various filters like location specific, private, public patients, etc. to this report.

Closing Cases / Assigning Outcomes

- A case record submitted to Nikshay is tracked till a logical end point.
- The type of logical end will depend on whether the case is Diagnosed/Notified and whether treatment was initiated or not
 1. For Cases that are **Test Pending** → convert to TB Not Confirmed
 2. For Cases Treatment has not been started → Assign Notification **Outcome** or the reason for not initiating on treatment
 3. For cases that have stopped/ completed treatment → Assign Treatment **outcome**.
- Moving a case to its logical end is called **Closing a case**.
- A patient's record may be closed by going to the Close Case tab in the patient management interface.

The screenshot shows the Nikshay web application interface. On the left is a navigation sidebar with options like Overview, New Enrollment, Patient Management, DBT, Task Lists, Unvalidated (99DOTS), Admin, and Others. The main content area displays a patient case for 'Ram Malhotra' with the status 'Outcome Assigned (Notified)'. A workflow bar at the top shows four steps: 'Add Case 1', 'Add Test 2', 'Initiate Treatment 3', and 'Close Case 4', all highlighted in green. A callout box points to the 'Close Case 4' step, stating 'Green color box Indicates Outcome has been updated'. Another callout box points to the patient status, stating 'Status of patient is "Outcome Assigned"'. Below the workflow, there are tabs for Adherence, Enrollment, Tests, Treatment Details, DBT, Reopen Case, Notes, and Others. The 'Basic Details' section contains a table with patient information.

Once a new episode is created then, the status for that episode is changed to Presumptive Open

One can select the other episodes for that patient in the Patient Management Page.

In a Patient Management Page an user can toggle between the various episodes added for that patient.

Delete a Case

- ▶ Before deleting a case, users should be careful because, “deletion” can not be undone.
- ▶ While deleting, the user needs to select the reason for deletion
- ▶ The Audit Trail of deleted cases will be available with Nikshay Technical Team and can be extracted and shared with CTD if required.
- ▶ The deleted case will not be visible to users (in the Application or in the Reports/Registers)

Direct Benefit Transfer

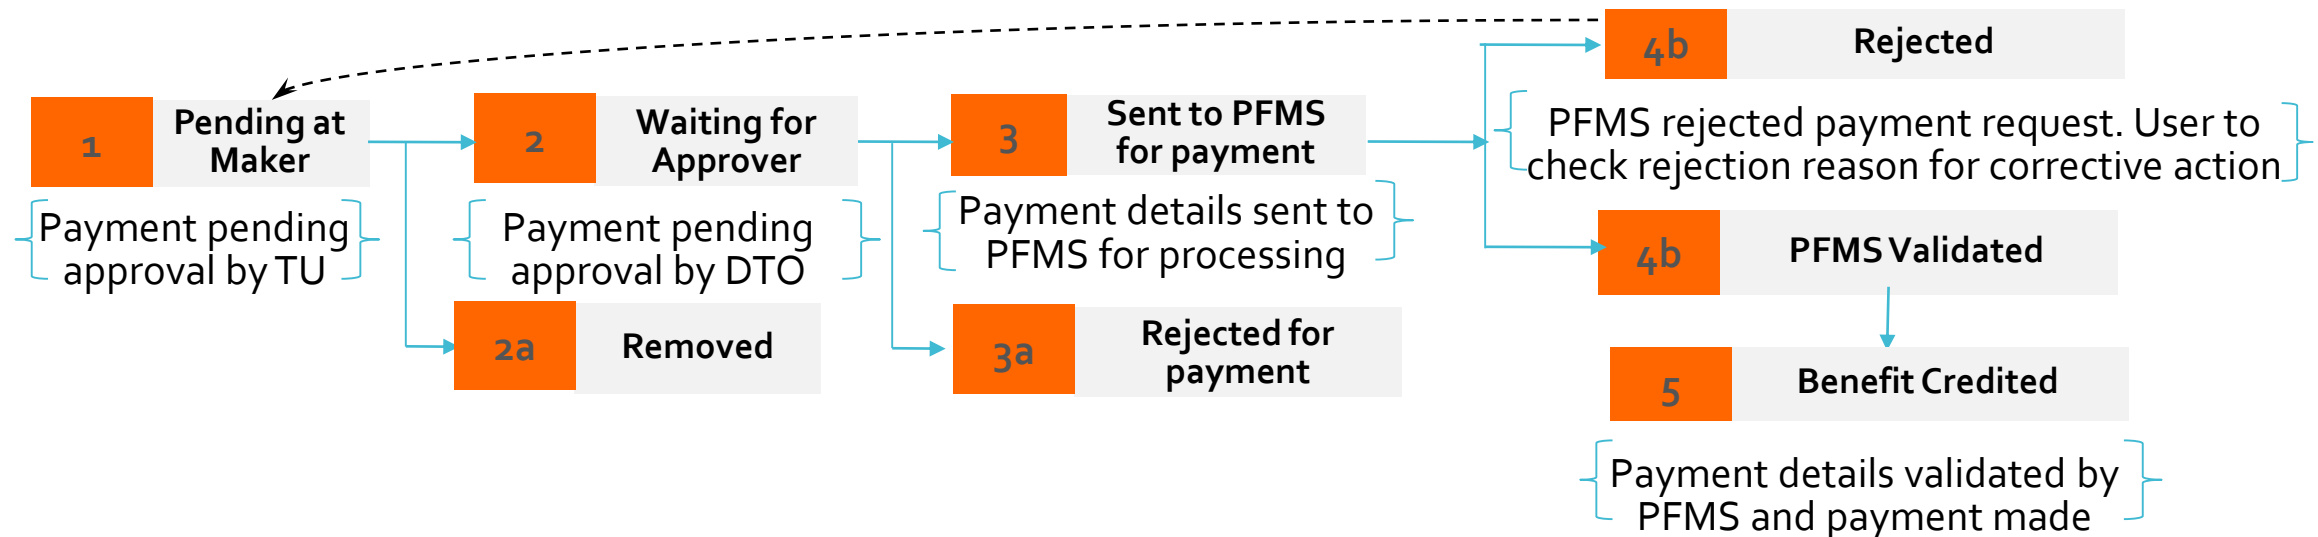

- ▶ Nikshay enables Direct Benefit Transfer of incentives into Bank Account of Beneficiaries under various schemes
- ▶ The various schemes under which benefits can be processed are:
 - ▶ Nikshay Poshan Yojana / TB Patient Incentive to TB Patients for nutrition support (FEATURE AVAILABLE)
 - ▶ Treatment supporters incentive (COMING SOON)
 - ▶ Tribal TB patients (COMING SOON)
 - ▶ Private Practitioners incentives for Notification (COMING SOON)

STEP	DETAILS
1	Update Beneficiary's Bank Account details (Bank Name, Account Number and IFSC Code) in Nikshay
2	Beneficiary's Bank details (entered in Nikshay), are sent to Public Finance Management System (PFMS) for validation/ registration . This is a one time activity for each beneficiary (provided account details do not change).
3	Based on scheme eligibility criteria, every time a beneficiary is eligible for DBT a Benefit is created in the system. Each benefit is tracked till a DBT transaction is successful for the beneficiary.
4	DBT can be made to validated/Registered beneficiaries. For every payment, double check at TU & DTO is required (Checker /TU – Approver/DTO). The DTOs approval will initiate payment process after OTP Authentication via registered mobile No.
5	If there is a failure in beneficiary Validation / payment, the reason will be displayed to the users. On rectification of the said errors, the payment process can be re-triggered.
6	Nikshay reflects the Beneficiary status (status of registration) and Benefit Status (status of payment) in DBT Module (explained below)

- ▶ To transfer money via Nikshay, “Beneficiary” should be “validated” by PFMS.
- ▶ This is a one time activity. Successful Validation indicates that Bank account details of the Beneficiary are valid
- ▶ Nikshay automatically sends Beneficiary Bank Account details to PFMS on the same day on which they are entered into Nikshay (End of day at 12 AM)
- ▶ If PFMS rejects a Beneficiary for any reason such as, incorrect Bank Account No. or Account Name or IFSC Code, User has to re-enter Correct details in Nikshay so that it can be re-sent to PFMS
- ▶ Various Beneficiary Statuses are

- ▶ For a validated Beneficiary, TU User (Maker) can check/approve a Benefit payment. At this stage, the status of the Benefit Payment is “Pending at Maker”
- ▶ As TU User approves, the Benefit record is visible in “Pending” list of DTO (Approver) & its status is “Pending for Approver”
- ▶ As DTO approves, the record is sent to PFMS for payment. If DTO rejects, the record is sent back to TU User (Maker)
- ▶ If PFMS validates the payment, Benefit amount gets credited to the Beneficiary. However, if PFMS rejects the payment, it returns to TU User (Maker) for reprocessing.
- ▶ Various Beneficiary Statuses are

The screenshot shows the 'Beneficiary List' page for the 'Nutritional Support Scheme'. The interface includes a sidebar with navigation options like 'Overview', 'New Enrollment', 'Add Tests', 'Patient Management', 'DBT', 'DBT Reports', 'Task Lists', 'Unvalidated (99DOTS)', 'Admin', 'Others', 'CBNAAT', and 'Active Case Finding'. The main content area has a breadcrumb trail 'Dashboard / DBT / Beneficiary List' and a green informational banner. Below this, there are tabs for 'Pending', 'Processing', 'Paid', 'Removed', and 'Deferred'. A 'Refine Results' button is highlighted with an orange box and the text 'Click here'. The 'Sort By' dropdown is set to 'Beneficiary Status (Z-A)'. The 'Filter Results' section contains four filter panels: 'TU' (with a list of locations including PUDURUTHAMANUR, DTC TRICHY, PUTHANATHAM, METTUPALAYAM, THANDALAIPTHUR, and KULUMANI), 'Beneficiary Status' (with options like Empty, Entered, Sent To PFMS, Rejected, and Validated), 'Type of Patient' (with Public and Private options), and 'Incentive Number' (with a search field and a value of 1). An 'APPLY FILTERS' button is highlighted with an orange box and the text 'Click here to apply filters and search'. A pagination bar at the bottom shows page 1 of 2.

Click Refine Results to see various fields that can be sorted and searched in all tabs of DBT section. One can search and sort based on TU/TUs, sort by Beneficiary Status, Type of Patient and Incentive Numbers.

The screenshot displays the Nikshay web application interface. On the left is a navigation sidebar with options like Overview, New Enrollment, Add Tests, Patient Management, DBT, DBT Reports, Task Lists, Unvalidated (99DOTS), Admin, Others, CBNAAT, and Active Case Finding. The main content area features a search bar at the top with the text "Search Cases". Below it, a dropdown menu is open, listing various sorting options: Benefit ID (Ascending), Benefit ID (Descending), Beneficiary Name (A-Z), Beneficiary Name (Z-A), Beneficiary Status (A-Z), Beneficiary Status (Z-A) (highlighted in blue), Benefit Status (A-Z), Benefit Status (Z-A), Amount (Ascending), Amount (Descending), Incentive Number (Ascending), Incentive Number (Descending), Benefit Created Date (Ascending), Benefit Created Date (Descending), Nikshay ID (Ascending), and Nikshay ID (Descending). The current selection in the dropdown is "Beneficiary Status (Z-A)".

Below the dropdown is a "Filter Results" section with four filter boxes: "TU" (No Filter), "Beneficiary Status" (No Filter), "Type of Patient" (No Filter), and "Incentive Number" (No Filter). An "APPLY FILTERS" button is located to the right of these filters. Below the filters, it says "Showing 1-100 of 146 results" and a "SUBMIT" button is visible.

At the bottom right, there is a pagination control with a blue box around it containing the numbers 1 and 2, with "1" being the active page.

Select appropriate option to sort

Pagination for search results

Here, apart from the pre-defined fields one can sort based on Benefit ID, Beneficiary Name, Amount, Incentive Number, Benefit Created Date, and Nikshay ID.

Uploading CBNAAT Test Results to Nikshay

- Central TB division has now provided the function in Nikshay to directly upload CBNAAT results to Nikshay.
- PHIs with CBNAAT facilities will be provided with the ability to upload CBNAAT test details to Nikshay.
- The results need to be exported in bulk from the CBNAAT machine and uploaded to Nikshay on a daily basis by the Lab Technician.
- The test details and the performance of the site are visible through a calendar based report with the details on number of tests performed, MTB detected/not detected and Rif sensitive/resistant patients

For more information on Uploading CBNAAT Test Results to Nikshay, please refer to the document in this link:

<https://nikshayeverwell.blob.core.windows.net/training-materials-nikshay/Nikshay%20Documents/Uploading%20CBNAAT%20Test%20Results%20in%20Nikshay.pdf>

The screenshot shows the Nikshay web application interface for uploading Genxpert reports. The page title is "Genxpert Upload to Nikshay". The breadcrumb trail is "Dashboard / Genxpert Upload to Nikshay". There are three tabs: "Genxpert Upload to Nikshay" (active), "Report Module As Non Functional", and "GenXpert Calendar Report". The main form area contains a "PHI" dropdown menu with "PULIYANTHOPE UPHC" selected, a "Choose File" button, and the text "No file chosen". A blue "SUBMIT" button is located to the right of the file selection area. A callout box with an orange border points to the "Choose File" button and contains the text: "Select the PHI and click Choose file and upload the CSV file exported from Genexpert." The left sidebar contains a navigation menu with items: Overview, New Enrollment, Add Tests, Patient Management, DBT, Task Lists, Unvalidated (99DOTS), Admin, Others, CBNAAT, and Active Case Finding. The top right of the page has links for "CALL 1800116666 FOR HELP!", "TRAINING MATERIALS", "ASK FOR HELP", and "WHAT'S NEW!".

Note:

1. All tests done after 1st of December 2018 are to be uploaded.
2. Tests are to be uploaded daily to Nikshay. Preferably after the last test has been done for the day.

The screenshot shows the Nikshay website interface. At the top left is the Nikshay logo, and at the top right is a 'Sign in' link. Below the header is a search bar with the text 'Search'. The main content area is divided into three columns. The left column contains a language selection menu with options: Introduction, English (highlighted), हिंदी, தமிழ், ಕನ್ನಡ, मराठी, മലയാളം, తెలుగు, ગુજરાતી, and Other Regional Languages. The middle column is titled 'English' and contains two sections: 'Nikshay - Training Documents' and '99DOTS - Training Documents'. The 'Nikshay - Training Documents' section lists: Nikshay DBT Guidance Document, Nikshay User Guide (PDF), Nikshay User Guide (PPT), Nikshay Dashboard Workflow Poster, and Nikshay Previous vs New Version UI Workflow Mapping. The '99DOTS - Training Documents' section lists: 99DOTS Overview, 99DOTS Manual, 99DOTS ART Staff Brochure, 99DOTS RNTCP Staff Brochure, 99DOTS Counselling Poster, and 99DOTS Universal Envelope Dispensing Guide. Below these is a link 'See all 7 articles'. The bottom section of the middle column is '99DOTS Checklists', listing: 99DOTS Patient Initiation Counseling Checklist, 99DOTS Patient Follow-up Counseling Checklist, and 99DOTS Checklist to Troubleshoot Toll-free Lines. The right column is titled 'English' and contains two sections: 'Nikshay - FAQs' with the link 'Adherence Technologies in Nikshay', and '99DOTS - Training Videos' with the link '99DOTS Patient & Provider Testimonial - English Subtitles'.
